### **Alawa Cabinetmakers Kitchen Renovation Steps and Procedures:**

1. Acceptance of quote with choice of:
  1. Colours for doors, drawers, and panels.
  2. Benchtop style and colour (20mm stone or 32mm laminated benchtops).
  3. Choice of hardware (Soft-closing doors and drawers, with standard handles).
2. Deposit payment to secure job.
3. Please purchase your appliances and hardware and drop them off at the workshop.  
(For staff to be able to use appliance specifics for drawings). Required appliances are stated below:
  - \* Rangehood. (Please note if ducting is required this will need to be supplied by client. Please ask staff for the specific requirements when purchasing rangehood. There is also an extra cost if it is to be ducted into ceiling).
  - \* Oven.
  - \* Cooktop.
  - \* Sink and taps.
4. Acceptance of simple kitchen drawing.
5. Supply of 3D kitchen drawing to client to see realistic view of job.
6. Acceptance of 3D drawing and any final changes to be made.
7. Kitchen will be made in workshop.
8. Removal of kitchen in order off:
  1. Please make sure kitchen area is prepped by removing all objects from inside cabinets being removed and covering anything within the working area in case of any dust or mess.
  2. Electrician: Disconnection of all current electronic appliances.
  3. Plumber: Disconnection of sink, dishwasher, ect.
  4. Removal and disposal of kitchen.
9. All plumbing and electrical changes will then be made in preparation for installation of new kitchen.
10. Please make sure if there is any tiling or floor work required that this be organised and communicated between all parties involved; and that all required preparation works are completed before installation of new cabinets.
11. Installation of kitchen.
12. Benchtops:
  - a) If 32mm laminated benchtops, they will be measured and made in workshop for installation in 2 to 3 business days. (Please note, there may be delay due to wet weather which may prevent the tops from being created.)
  - b) If 20 mm stone, measurements will be taken by stone mason after installation of kitchen, and benchtop will be made at their workshop and installed in 5 to 7

business days depending on availability; a definite time will be scheduled at or after measurements are taken. (Please note: kitchen hardware will need to be made available to stone mason when measuring up for tops. These include the sink, tap, and stove top.)

13. Splashback (If stone will be measured and installed with or after tops).
14. Electrician and plumber return to reinstall appliances and kitchen hardware.
15. Any painting, cornicing, skirting or other fix ups required. (Please note, you will almost always require touch-ups to be made after completion of a kitchen renovation. We are happy to recommend tradesmen to assist with these, and they will be invoiced separately/directly if not originally quoted or specifically stated on quote).
